

# think digital

## **TIS Think Digital Laptop Program - Information for Gr. 6 Parents**

Current grade six students will join the TIS laptop program in the 2018-19 school year. In preparation for this transition, the following have been shared with the parents of these students:

- Program overview document
- Think Digital laptop program enrolment form (due May 31, 2018)
- Laptop order forms (Macbook & Chromebook)

On May 17 at 10:00 a.m., a short presentation is being offered to parents who would like to learn more about the laptop program; this presentation is taking place in the Black Box Theatre, immediately after the Division 2 assembly.

Technology Integration staff will talk briefly about the program and then parents will have the opportunity to examine various laptop devices (Macbooks & Chromebook).

I hope to see you at the presentation!

Mel Varga  
Technology Integration Coordinator  
The International School of Macao
