

Head of School Report to TISPA June 2016

School Fees and DSEJ Compliance

The school is currently working with DSEJ to align its school fees with the local requirements. The TIS program is significantly different from other local schools. Alberta Education accredits our program and we must meet their stringent requirements in addition to DSEJ's requirements. This necessitates that we spend our money differently than local schools. For example, we have significantly more teaching assistants in our school, we offer additional specialists, we have expanded technology resources and enhanced library and science lab resources. The attached document goes into more detail about the proposed changes.

Injuries and Illnesses at School

The school has a procedure in place for injuries and illnesses of students. Most are handled in the nursing station. In more severe situations or by parental request, students will be taken to the hospital on campus. The nurse accompanies the student to address any issues that arise and to assist the student/family as necessary.

The recent discussions had us review our overall health and safety documentation. We have drafted the attached Injuries and Illnesses policy and welcome parent feedback. We are also ensuring that our Lockdown Procedures (not full version), Missing Student Procedures, and Air Quality Guidelines are available to parents. The Health and Safety Committee have just completed a "Safety Starts Here" poster that will be put up this summer.

DSEJ Curriculum and Alberta Curriculum Alignment

Macau has recently released their basic attainment objectives and curriculum implementation timelines. As a Macau school, TIS is required to ensure that we meet all of the basic attainment objectives. Macau organizes these objectives into subjects that are covered in Infant Education (Kindergarten), P1-P3 (Gr1-3), P4-P6 (Gr4-6), Junior Secondary 1-3 (Gr7-9) and Senior Secondary (Gr10-12). TIS has already completed the kindergarten alignment and are working on the P1-P6 alignment. It is anticipated that virtually all objectives will be covered by the Alberta curriculum.

澳門國際學校家長會(TISPA) – 2016年6月

學費及教育局準則

學校正與教育局進行有關學費與本地需求接軌的研究。本校的教學計劃與其他本地學校不同，本校需嚴格遵守艾伯塔教育部的教育計劃的同時，也要合乎教青局之要求，因應獨特的需求，本校的開支成本與澳門本地不同。例如，學校需要更多助教、我們提供更多額外專業的、豐富的科技資源、優良的圖書館及實驗室的配備。詳盡內容如附件。

受傷及疾病政策

學校有一套應對學生受傷及生病的政策。一般情況下，學生可在護士室得到治療，但若是情況較為嚴重或在家長的要求下，學生將被移送到科技大學校園內的醫院。而護士亦會在現場協助學生處理問題，並在有需要時幫助學生／家長。

最近幾次的討論讓本校就健康及安全文件的整體狀況進行回顧。歡迎家長就受傷及生病政策項目所起草的文本提供意見。另外，學校還確保了學生失蹤以及空氣質量準則等鎖定程序（非完正版），均歡迎家長參與。健康及安全委員會剛完成了「Safety Starts Here」的海報，會於暑假貼出。

教青局及艾伯塔教學準則

澳門當局近日發佈了「本地學制正規教育基本學力要求」及實施時間表。作為一所本地學校，澳門國際學校有必要確保學校達到所有基本目標。當局的新政策涵蓋幼兒教育階段（幼稚園）、小一至小三、小四至小六、初一至初三以及高一至高三。目前，本校已完成了幼兒教育階段的目標，並為小一至小六階段展開實施。預計所有課目都能與艾伯塔課程接軌。
